

The Giant's Rib Escarpment Education Network is a not-for-profit organization promoting uses of the Niagara Escarpment that will ensure retention of its natural state for future generations. Our programs interpret the Niagara Escarpment through geographical, geological, historical, agricultural, and cultural experiences.

**Volunteer Position Available**  
**Vice President**

To move forward in a positive direction and grow to meet our potential, the Giant's Rib Escarpment Education Network (GREEN) is looking for individuals enthusiastic about the Niagara Escarpment World Biosphere Reserve, its preservation and interpretation to the public.

The Vice President is a successional position, at first familiarizing oneself with operations in preparation for succeeding the President in 2016. Duties would include mostly attendance at meetings and functions with partner organizations and communications with those organizations on collaborative projects, then reporting back to the Board. The position is also responsible for overseeing GREEN programs and activities.

Volunteers receive free entry to the Dundas Valley Conservation Area and assistance with transportation may be available. Co-ordinator positions attend monthly Directors meetings, and are asked, if available, to volunteer a shift each month at the Centre, although it is not a requirement.
