Giant's Rib Discovery Centre wants residents to get snapping.

In partnership with Hamilton-based CD Video Productions, the GRDC is launching an online photography contest focusing on digital images of the Niagara Escarpment World Biosphere Reserve.

The contest is seeking entries of digital photographs of people in nature, as well as those that highlight the beauty and diversity of Niagara Escarpment wildlife, waterfalls, and landscapes. In order to qualify, photographs must be taken along the Niagara Escarpment.

The deadline for submitting entries is 11:59 p.m. on April 30. Contest entries will be featured on the contest website and available prints will be showcased as our Featured Artists of the Month for July and August at the Discovery Centre in the Dundas Valley Conservation Area.

For full contest details or to submit an entry, visit <http://cdvideo.ca/Gallery/>.

Questions and inquiries about contest rules can be emailed to [gallery@cdvideo.ca](mailto:gallery@cdvideo.ca).
